

The screenshot shows the FlyUX home page search form. The form is titled "Search for flights" and includes the following elements:

- 1:** Language and currency selection dropdown (EN / CHF).
- 2:** "From" dropdown menu with "Zürich" selected.
- 3:** "To" dropdown menu with the placeholder "Enter your destination".
- 4:** "Direction" dropdown menu with "Return" selected.
- 5:** "Date" selection fields with placeholders "From: dd.mm.yyyy" and "Until: dd.mm.yyyy".
- 6:** "Passengers" dropdown menu with "1 Adult" selected.
- 7:** "Find flights" button.

Below the search form, there is a "Discover destinations" section with four destination cards, each featuring an image, a title, a price (e.g., "From CHF 220"), and a "book now" button. A "More destinations" button is located below the cards.

The footer contains four columns of links:

- About FlyUX:** Careers, Company, Media
- Services:** Arrival and departure, Check-in information, Baggage
- Customer Support:** Contacts, FAQ / Help, Refund / Compensation
- Digital:** Newsletter, Facebook, Twitter, LinkedIn

01.01 Home page

- 1) Dropdown for language and currency selection. Use user setting if it was set at any time. Fallback to browser country/language setting and corresponding currency. For details see **01.01 Home page – components**
- 2) Dropdown list with autocomplete while typing. Prefilled with previous entry, if not available fall back to nearest airport. In case it's not possible to determine that, leave the field empty and show placeholder.
Placeholder: «*Enter your departure*»
Error message: «*Please select a departure airport*»
- 3) Dropdown list with autocomplete while typing.
Placeholder: «*Enter your destination*»
Error message: «*Please select a destination airport*»
- 4) Default state is «*Return*», if switched to «*One-way*» the «*Until*»-Field in the date selection disappears.
- 5) Popup calendar opens on click, let the user select «*From*» and «*Until*» or type by hand. For details see **01.01 Home page – components**
Placeholder: *dd.mm.yyyy (date format)*
Error message: «*Please enter your travel date*»
- 6) Default is «*1 Adult*», on click the dropdown opens to add more adults or children / babies. For details see **01.01 Home page – components**
- 7) Validates the user input on click. If something is missing / wrong, throw an error at the respective input field.

01.01 Home page – components

- 1) Dropdown for language and currency
- 2) Date selection «From» «Until», selected dates and days in between are highlighted.
- 3) Passenger selection, with «-» and «+» the number of passengers can be de/increased. When one of the groups (adults, children, babies) is one or more, the text in the dropdown updates and list the passengers. Example: «2 Adults, 2 Children»

The screenshot shows the FlyUX website interface for flight search. The top navigation bar includes 'Home', 'Search', 'Check-in', 'Discover', and 'Login'. The current page is 'Outgoing flight', with a breadcrumb trail: 'Outgoing flight' > 'Return flight' > 'Flight options' > 'Summary' > 'Passenger data' > 'Payment'. A 'Select outgoing flight' section features a carousel of dates from Monday to Friday with prices: CHF 340, CHF 270, CHF 220 (selected), CHF 240, and CHF 320. Below this is a table of flight options with columns for Departure, Duration, Arrival, Economy Description, and Business Description. A 'Total cost: CHF 0' is displayed at the bottom, along with a 'Return flight' button. The footer contains links for 'About FlyUX', 'Services', 'Customer Support', and 'Digital'.

Departure	Duration	Arrival	Economy Description	Business Description
12:15 Zürich	1h 15min Non-stop	13:30 Copenhagen	Book for CHF 220	Book for CHF 260
13:00 Zürich	1h 30min Non-stop	14:30 Copenhagen	Book for CHF 225	Book for CHF 270
16:00 Zürich	2h 30min 1 stop	18:30 Copenhagen	Book for CHF 250	Book for CHF 280
19:30 Zürich	1h 15min Non-stop	20:45 Copenhagen	Book for CHF 320	Book for CHF 360

02.01 Outgoing flight

- 1) Navigate back to the form to change the flight data. All previous inputs should be saved.
- 2) Active day is set to the user input from the form before. Show the cheapest price of the day.
- 3) Switch to other days on click.
- 4) Further dates are reachable with click on arrows. Then it jumps one week forward/backward.
Hover text: «Next five days»
- 5) If the journey has one or more stops this button opens the modal with all stops listed. Details see **02.01 Outgoing flight – stops overlay**
- 6) Total cost listed, with button to toggle the full list of all costs. With no selection the list inside the popup is empty and a text says: «No flights selected».
- 7) Navigate to next page, disabled as long as no flight is selected.
Hover text: «Please select an outgoing flight first»

The screenshot displays the FlyUX website interface for flight search results. The main navigation includes Home, Search, Check-in, Discover, and Login. The current page is titled 'Outgoing flight' and shows a selection of flight options for the date 24.05.20 (Wednesday) to Copenhagen. A modal window titled 'Stops' is overlaid, showing a 1-stop itinerary from Zurich to Copenhagen via Madrid. The modal includes a close button (marked with a yellow '1') and a list of stops with their respective times and durations (marked with a yellow '2').

Departure	Duration	Arrival	Economy Description	Business Description
12:15 Zürich	1h 15min	13:30 Zürich	CHF 220	Book for CHF 260
13:00 Zürich	1h 15min	14:15 Zürich	CHF 225	Book for CHF 270
16:00 Zürich	1h 15min	17:15 Zürich	CHF 250	Book for CHF 280
19:30 Zürich	1h 15min Non-stop	20:45 Copenhagen	Book for CHF 320	Book for CHF 360

Total cost: CHF 0

02.02 Return flight – flight selected and cost popup

- 1) Total cost updates after flight selection. All costs are listed with the single prices. With the arrow button, the popup toggles between open and closed.
- 2) After a flight is selected, the «*Flight options*» button is enabled.

The screenshot displays the 'Flight options' page on the FlyUX website. The page is divided into several sections:

- Navigation:** Home, Search, Check-in, Discover, Login, EN / CHF.
- Progress:** Outgoing flight, Return flight, **Flight options**, Summary, Passenger data, Payment.
- Extra baggage:**
 - Outgoing flight (Zürich - Copenhagen): 0 Extra baggage for Adult 1 (+ CHF 50), 0 Extra baggage for Adult 2 (+ CHF 50).
 - Return flight (Zürich - Copenhagen): 0 Extra baggage for Adult 1 (+ CHF 50), 0 Extra baggage for Adult 2 (+ CHF 50).
- Seat selection:**
 - Outgoing flight (Zürich - Copenhagen): Adult 1: 12B (Selected), Adult 1: 12C (Available).
 - Return flight (Copenhagen - Zürich): Seat grid showing available, selected, and occupied seats.
- Legend:**
 - Available: Grey square
 - Selected: Green square with checkmark
 - Occupied: Red square with X
 - Exit row: Green square
- Bottom Bar:** < Back, Total cost: CHF 1280, Summary >

03.01 flight options

- 1) With «-» and «+» the user can update the number of extra baggages. Alternatively the number can be entered directly in the input field. On change, the total cost at the bottom updates.
- 2) The «*Outgoing flight*» tab is visible by default, with a click on the «*Return flight*» the other tab becomes visible.
- 3) Seat is automatically assigned. With a click on the button, the view changes to «Seat change» mode. For details see **03.01 flight options – change seat**
- 4) Scrollable list with all the seats of the plane and the state (available, selected, occupied, exit row).
- 5) Navigate back to «*Return flight*». All selections are kept.
- 6) Navigate to «*Summary*» page.

The screenshot displays the FlyUX website's flight options page. At the top, there's a navigation bar with 'FlyUX', 'Home', 'Search', 'Check-in', 'Discover', 'Login', and language/currency selectors (EN / CHF). Below this is a progress bar with steps: 'Outgoing flight', 'Return flight', 'Flight options' (active), 'Summary', 'Passenger data', and 'Payment'.

The main content area is titled 'flight options'. It is divided into two sections: 'Extra baggage' and 'Seat selection'.

Extra baggage section: It shows options for 'Outgoing flight' (Zürich - Copenhagen) and 'Return flight' (Zürich - Copenhagen). For each flight, there are two rows of baggage options for 'Adult 1' and 'Adult 2'. Each row has a quantity selector (0, -, +) and a price of '+ CHF 50'.

Seat selection section: It allows changing seats for 'Outgoing flight' (Zürich - Copenhagen) and 'Return flight' (Copenhagen - Zürich). A dropdown menu for 'Adult 1' is open, showing a list of seats (1A-1F, 2A-2F, 3A-3F, 4A-4F) with a legend: Available (grey), Selected (green check), Occupied (red X), and Exit row (green). A 'change seat' link is visible. To the right is a seat map grid with columns A-F and rows 1-9. Seat 1D is highlighted in green, and seat 5F is highlighted with a yellow circle (4). Other seats are marked as occupied (red X) or available (grey).

At the bottom, there's a 'Back' button, 'Total cost: CHF 1280', and a 'Summary' button.

03.01 flight options – change seat

- 1) Dropdown that opens on click for new seat selection. All rows are listed, the available seat numbers are clickable, the others are disabled.
- 2) Cancel seat selection and reset to default selection.
- 3) Save new selected seat.
- 4) Scrollable list with all seats. Available seats are clickable in this mode and then the seat is directly selected.
